

RAKESH H C

Computer Science and Engineering Graduate

rakeshchandru21@gmail.com +91 6361697944 [LinkedIn](#) [GitHub](#)

PROFESSIONAL SUMMARY

Hard-working and motivated engineering graduate with a strong foundation in Data Structures, Algorithms, object-oriented programming, and data analysis. Passionate about building efficient software solutions and deriving meaningful insights from data. Known for a strong learning mindset, adaptability, and the ability to quickly pick up new technologies and tools. A problem-solver who enjoys tackling real-world challenges, collaborating with teams, and contributing across the full software development lifecycle. Committed to continuous learning, quality work, and delivering reliable, user-focused solutions.

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, SQL
- **Data Analytics Visualization:** Data Cleaning, Exploratory Data Analysis (EDA), Data Transformation, Power BI, Excel
- **Statistical Analytical Methods:** Hypothesis Testing, Regression Analysis, Predictive Modeling, A/B Testing
- **Web Full-Stack Development:** HTML5, CSS3, React.js, Node.js, Django, RESTful APIs
- **Databases Tools:** PostgreSQL, MongoDB, Jupyter Notebook

EDUCATION

- **Malnad College of Engineering, Hassan** **2021-2025**
Bachelor of Engineering in Computer Science and Engineering
CGPA: 8.1

PROJECTS

Green Mind:Smart Solution for Modern Farming

- Developed a predictive analytics model using Random Forest Classifier achieving a training accuracy of 99.32%.
- Implemented a CNN-based leaf disease detection system with 98% accuracy for early crop diagnosis.
- Designed a fertilizer recommendation system based on soil and crop data, integrated with a React.js frontend for real-time insights.

Canteen Management System

- Built a smart canteen solution using React.js and SQL with RFID-based user authentication for secure and fast transactions.
- Designed a real-time client dashboard using Highcharts for order tracking, inventory visualization, and performance analytics.

AI Chat Portal

- Developed an AI-powered chat-based platform to simulate interview-style conversations and user interactions.
- Designed a React.js frontend to handle dynamic chat flows, user inputs, and responsive UI components.
- Implemented a Flask backend to manage API requests, conversation handling, and data processing.
- Integrated NLP-based response handling and basic performance insights to improve interaction quality and user experience.

PROFESSIONAL EXPERIENCE

JV Global Service Pvt. Ltd (Web Development Intern) *Hassan — Nov 2022 – Dec 2022*

- Built a strong foundation in Python programming with applications in data analysis and automation.
- Gained proficiency in data-centric libraries such as NumPy, Pandas, Matplotlib, Seaborn, and introductory TensorFlow.
- Enhanced coding and problem-solving skills, earning certifications on HackerRank for Python and Data Structures.

Dyashin Technosoft (Data Analytics Intern) *Bangalore — Feb 2025 – May 2025*

- Analyzed structured datasets using Python (Pandas, NumPy) for data cleaning, transformation, and wrangling to generate business insights.
- Executed SQL queries for data retrieval, joins, and filtering to support client reporting and performance tracking.
- Conducted Exploratory Data Analysis (EDA) and applied statistical methods to identify trends, anomalies, and correlations.
- Developed interactive dashboards in Power BI and frontend data reports using React.js to present analytics insights.

ACHIEVEMENTS

- Contributed to multiple academic and internship projects, showcasing strong problem-solving ability, technical execution, and teamwork.
- Actively practiced Data Structures and Algorithms by solving numerous problems on LeetCode, HackerRank, and GeeksforGeeks, strengthening logical thinking and coding proficiency.
- Earned multiple certificates and skill badges on HackerRank for Python and SQL problem-solving challenges.
- Served as a Core Member of the Innovation Club, collaborating with peers to identify real-world problems and develop solution-oriented technical ideas through ideation and prototyping.

CERTIFICATIONS

- **Introduction to Python Programming** — Basics of Python development
- **Power BI** — Certification from Simplilearn
- **SQL Advance Developer** — Gold Badge from HackerRank
