

# RAKESH H C

Computer Science and Engineering Graduate

rakeshchandru21@gmail.com +91 6361697944 LinkedIn github.com/rakeshhc22

## PROFESSIONAL SUMMARY

Computer Science graduate (CGPA: 8.1) from Malnad College of Engineering with hands-on experience in **Full Stack Development** and **Data Analytics**. Built **15+ projects** using Python, React.js, Node.js, SQL, and Power BI including a production-grade SaaS platform and ML models with up to **99% accuracy**. Solved **500+ DSA problems** across LeetCode and HackerRank. Founded a startup mentoring junior developers. Seeking entry-level roles in **Software Development, Full Stack, or Data Analytics**.

## TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, SQL
- **Frontend:** React.js, Next.js, HTML5, CSS3, Redux, Tailwind CSS
- **Backend:** Node.js, Express.js, Django, Flask, FastAPI, RESTful APIs
- **Databases:** PostgreSQL, MongoDB, MySQL, Prisma ORM
- **Data & ML:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow, Power BI, Excel
- **Concepts:** Data Structures & Algorithms, OOP, EDA, Hypothesis Testing, Regression, A/B Testing, RBAC
- **Tools & Platforms:** Git, GitHub, Postman, Figma, Vercel, Render, Arduino

## EDUCATION

- **Malnad College of Engineering, Hassan** **2021-2025**  
Bachelor of Engineering in Computer Science and Engineering CGPA: 8.1

## PROJECTS

### AI-Powered Unified Operations Platform *Next.js, Node.js, PostgreSQL, Prisma, Twilio*

- Built a full-stack SaaS platform centralizing booking management, staff assignment, inventory tracking, and customer communication with role-based access control (Owner/Staff).
- Designed a scalable database schema with automated slot computation, intelligent staff auto-assignment, conflict detection, and rescheduling workflows.
- Integrated AI-driven conversational booking and multi-channel notifications via Email (Nodemailer) and SMS (Twilio) with event-based automation.

### Green Mind and Smart Farming Solution *Python, Random Forest, CNN, React.js, Scikit-learn*

- Trained a Random Forest model achieving **99.32% accuracy** for crop yield prediction based on soil and environmental parameters.
- Built a CNN-based leaf disease detection system with **98% accuracy** for early-stage crop diagnosis.
- Integrated a fertilizer recommendation engine with a React.js dashboard delivering real-time agricultural insights.

### AI Chat Portal and Interview Simulation System *React.js, Flask, NLP, REST API*

- Developed an AI-powered full-stack platform simulating realistic interview scenarios with dynamic, context-aware conversation flows.
- Built a Flask REST API backend handling NLP-based response processing and candidate performance tracking.
- Integrated interaction analytics and structured feedback mechanisms to improve user preparation outcomes.

## PROFESSIONAL EXPERIENCE

### Data Analytics Intern | Dyashin Technosoft, Bangalore *Feb 2025 – May 2025*

- Cleaned and transformed structured datasets using Pandas and NumPy; wrote optimized SQL queries (joins, aggregations, filtering) to extract actionable business insights.
- Conducted Exploratory Data Analysis (EDA) to identify trends, correlations, and performance gaps across client datasets.
- Built interactive Power BI dashboards and delivered structured analytical reports to support data-driven client decision-making.

### Web Development Intern | JV Global Service Pvt. Ltd, Hassan *Nov 2022 – Dec 2022*

- Developed Python automation scripts to streamline data processing and workflow optimization tasks.
- Applied Pandas, NumPy, and visualization libraries to analyze datasets and generate actionable reports.

## ACHIEVEMENTS

- Solved **500+ DSA problems** across LeetCode and HackerRank covering arrays, trees, graphs, and dynamic programming.
- Earned **HackerRank certifications** in Python and SQL, demonstrating strong problem-solving and query optimization proficiency.
- Founded a **startup** focused on mentoring junior developers through end-to-end project guidance, bridging the gap between academics and real-world development.
- Core Member, **Innovation Club** Led ideation and prototyping initiatives to solve real-world technical challenges.
